# JOHN J. KELLY WILDLIFE MANAGEMENT AREA

(Chester)

- SIZE:** An L-shaped parcel of 267 acres located on the slope of Round Top Hill. The southeastern boundary is located on Round Hill Road, while the northwestern boundary is on Walker Brook. Although there are some level plateaus, most of the area is steep sloping hillside.  
U.S.G.S. Quad: Chester
- VEGETATION:** Thickly wooded in mixed hardwood forest.
- WATER:** The seasonally flowing Blair Brook bisects the southern end of the area. Walker Brook, located on the northern boundary of the area, is stocked trout water.
- WILDLIFE:** Deer, gray squirrel, raccoon, coyote and numerous nongame species associated with the forest habitat. This area is not stocked with pheasant.
- SPECIAL REGULATIONS:** No entry is allowed into the abandoned mines on this property without a permit from the MDFW's Western Wildlife District Office.
